To: Airline Carriers

Regarding: Aircraft Carry-on luggage

To Whom it May Concern

Competitive skaters registered with SkateNZ are travelling from New Zealand with your airline to compete in an international event.

As it is imperative that they have their personalised equipment available for the entirety of the competition to enable them to compete to the fullest and there is potential for luggage to be delayed or go missing during transit, it is our recommendation to them that their roller skates are taken on as carry-on luggage.

A skaters' boots are custom made for their feet and actions are tailored to the skater, meaning that it is not possible to borrow equipment for the event.

While we recognise that your staff do their best to ensure that luggage is received at the correct destination at the correct time, due to the short lead in time between their arrival and the start of the competition, we would like to officially request that our skaters are allowed to take their skates on as carry-on luggage. All other necessary competing paraphernalia will be packed in their general luggage.

Kind regards

Leanne Burling  
Secretary  
NZ Federation of Roller Sports
