We are currently a small but determined club, always looking for and welcoming new members. It is preferable for newcomers to have some skating experience (not necessarily speed) as we do not have the numbers for a "learn to skate" class at this time. We may be able to assist skaters with hire skates for a time, and have a selection of training wheels and gear they can borrow if necessary. Club skaters have traditionally competed strongly in regional and national competitions and several have also skated at the World Championships more than once.
